

COMPUTATIONAL MOLECULAR BIOLOGY

Last updated: September 4, 2023

Hello! These lecture notes were originally created during the 2018 iteration of CS 181 (Computational Molecular Biology) taught at Brown University by Sorin Istrail. The original notes were provided by Shivam Nadimpalli, and future updates have been made by course TAs including Elliot Youth, Daniel Ben-Isvy, Sam Maffa, and Iris Huang. Please email any comments or typos to cs1810tas@lists.brown.edu.
